## Faculty of Music: procedures for Ethical Review of Research Proposals

Ethics Sub-Committee reviews application and will communicate a decision by 2 weeks after the submission deadline. They will either:

- (a) approve, require revision and resubmission, or reject, communicating decision to the applicant (in the case of undergraduates, via the Chair of the relevant Exam Board).
- (b) in cases judged to be outside the competence of the Ethics Sub-Committee, remits the application to an appropriate School-level Ethics Committee, informing the applicant in order that they can make the application directly.
